Dear Sir/Madam,

I am a Full-stack Web Developer, who has successfully completed the Coding Boot Camp accredited and run by The University Of Birmingham. I have competently gained a highly refined industry relevant skill set to engineer a Full Stack Web Application with confidence. Whilst successfully fulfilling the requirements of this fast tracked course, I maintained my motivation to work effectively under pressure to the tightest deadlines under my own initiative, and as part of a team. I'm a fast learner and very passionate about solving problems, software engineering is the most enjoyable way to do that. I'm looking forward to transferring my existing skills and knowledge to contribute to the success of the Organization. Please kindly consider my CV attached with links to my portfolio, GitHub and LinkedIn. I look forward to hearing from you. Thank you.

Kind regards.

Niroshana
